

# We Need A New Leader

Have a look at these pictures. They show pictures of last years District cub camp, tree planting in Havering Park, the pack recycling for their environmental badges and the pack representing the organisation at the opening of a local store. These are just a few of the activities we have done this year. We have also done Hikes, a fancy dress evening, visited Upminster Windmill and gone on another camp among many other things.

Now look at the expressions on the faces of the boys. It is this that makes scouting so worthwhile. I know I have been leader of this pack for nine years.

But I need to step aside, and the pack needs someone new to push it forward. We have a number of people willing to give support, but what we really need is someone to take over the helm.

You need to be able to commit to one evening a week, Tuesday, plus some organisation time. You will also need to attend some meetings throughout the year. However, the payback is being part of the most successful youth organisation in the world and seeing the smiles on the boy's faces.

No experience is necessary (believe me I had none) and full training is provided. Plus the group and District are very supportive.

So please don't ignore this plea. Step forward and be one of those who ensures that scouting lasts another 100 years and beyond.
